OSINT Framework

(T) - Indicates a link to a tool that must be installed and run locally
(D) - Google Dork, for more information: [Google Hacking](#)
(R) - Requires registration
(M) - Indicates a URL that contains the search term and the URL itself must be edited manually

Notes

OSINT framework focused on gathering information from free tools or resources. The intention is to help people find free OSINT resources. Some of the sites included might require registration or offer more data for \$\$\$, but you should be able to get at least a portion of the available information for no cost.

I originally created this framework with an information security point of view. Since then, the response from other fields and disciplines has been incredible. I would love to be able to include any other OSINT resources, especially from fields outside of infosec. Please let me know about anything that might be missing!

THE **GREAT HACK**

Cyber Bullying

- Threatening / abusive messages
- Doxing – posting sensitive info online
- Suicide pacts / apps / games

**DON'T BE
A CYBERBULLY**

Nobody likes you

Stupid Fat
Gross
Ugly Idiot
Kill yourself

THE FACTS:

- 1 Cyberbullying is bullying that takes place using electronic technology such as the internet, social media and mobile devices
- 2 Examples include harsh text messages, emails, rumours or posts, embarrassing photos, videos or fake profiles
- 3 Cyberbullying can happen 24 hours a day, 7 days a week and reach a person anywhere in the world

TIPS:

- 1 Report any type of bullying immediately - this behaviour is not acceptable
- 2 Be a buddy - not a bully. Treat others how you would like to be treated
- 3 Bullying is wrong - it's no different ONLINE

DAY 28

**DON'T
TALK TO
ANYONE
ALL DAY**

Tejaswi Shahir
@TejaswShahir

It's a game called "blue whale", an online challenge that ends with a suicide. Please check on your teenage children.

Actual Case – Cyber Fraud

Hello Alert Africa.

My name is Snegugu and I would like to report a cybercrime incident.

My personal details are:

Name and Surname: xxx
Date of Birth: Date of Birth 1995-xx-xx
I am: Female
My ID / Passport Number: xxxxxxxxxxxx
My Postal Address: xxxxxx
Umlazi
4031

My contact details:
Phone: 063xxxxxxx6
Email: xxxxx@gmail.com

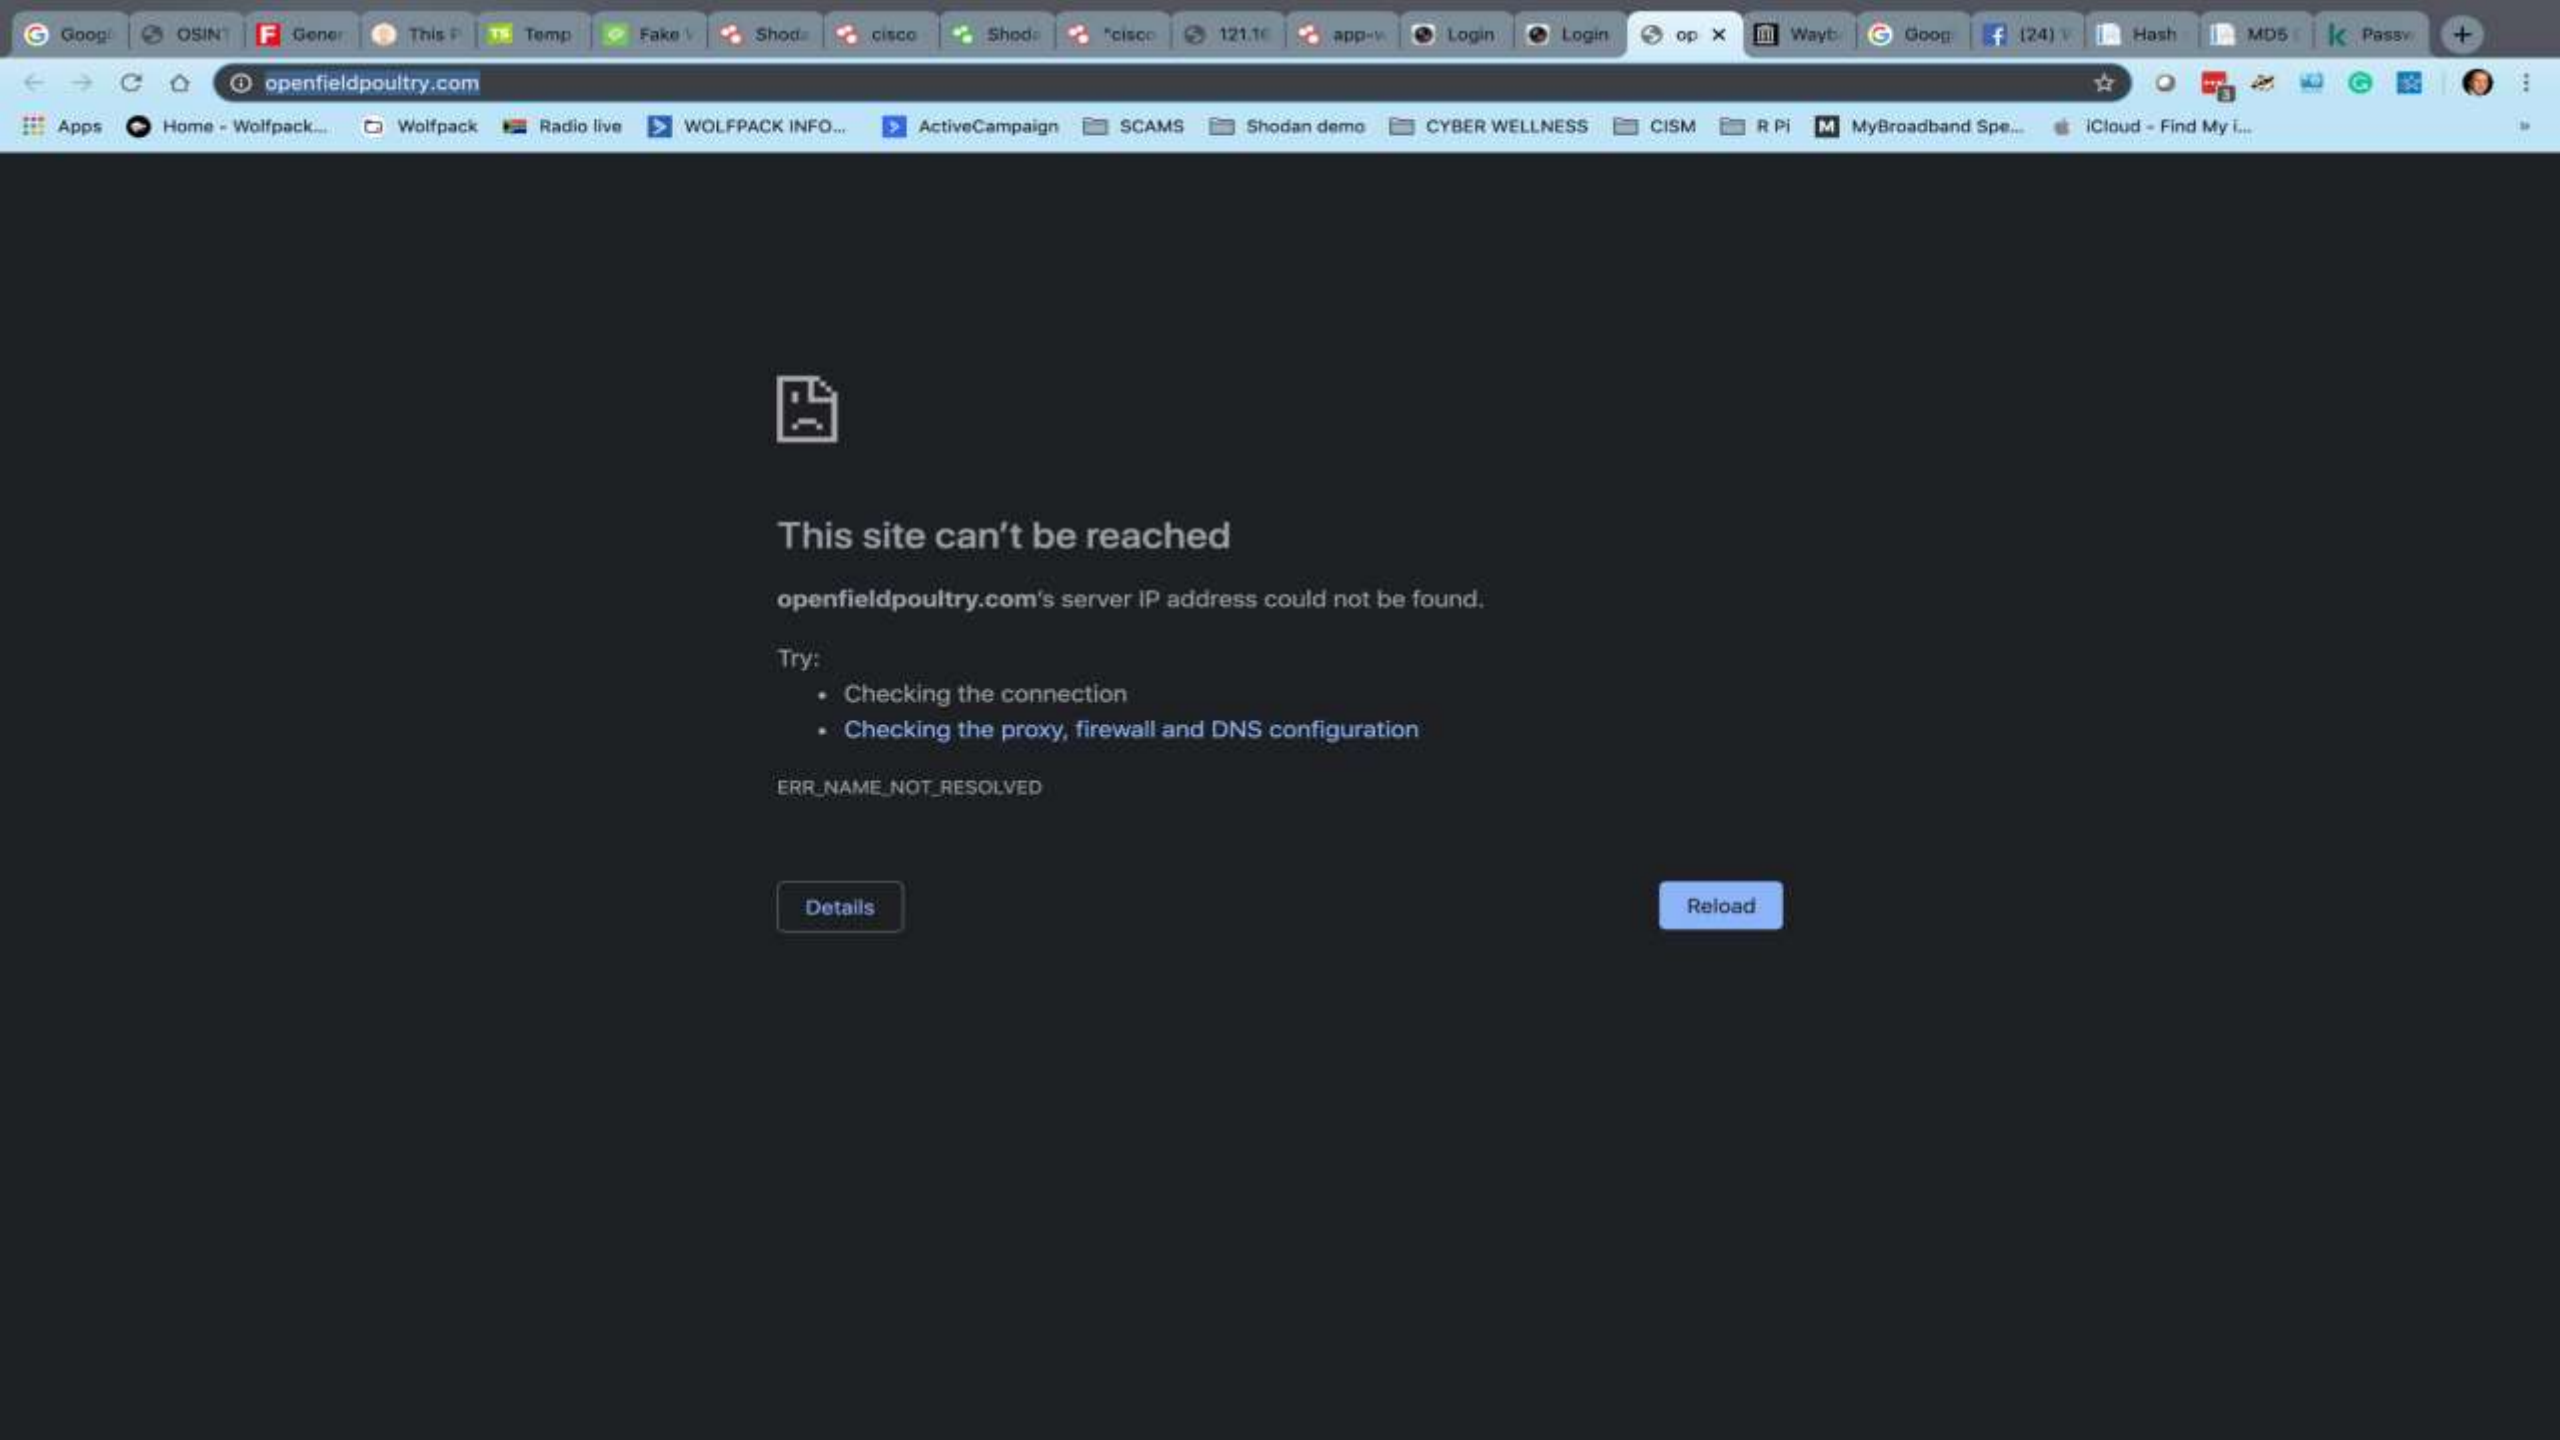

About the Incident:

The incident happened on: 2019/05/15
Type of Crime: Internet fraud

This is what happened:

There's a company called OpenField Poultry, they claimed to be a poultry farm, they started an investment from R35 per chick with interest of R19.50, for 3 months they paid and now they are giving us excuses, the director is Ntokozo Shange, there's over 2000 of us scattered across the world

This site can't be reached

openfieldpoultry.com's server IP address could not be found.

Try:

- Checking the connection
- Checking the proxy, firewall and DNS configuration

[CHOOSE PLAN](#)

Our Story

Founded in South Africa, Open Field chicken is South Africa's first biggest black female owned poultry house growing and supplying wholesalers and major distributors of all poultry products. Open Field started from just 1000 chickens in 2015 as a co-operative and later change to a private company (Pty) LTD and grew to create a national footprint across South Africa with farms in Wasbank, PMB , Nquthu and Estcourt in Kwa Zulu Natal with future plans to lease additional farms in Gauteng and free state in 2019.

Expertise

We have vast experience in Agri Science with years of practical experience in poultry producing, supply chain management and business management. We consist of a highly qualified team which is hands on and have personally invested on the business and all its operations .

Strategy

Our latest strategy which is aimed at addressing the national crisis of locally produced chicken includes embarking on a mass crowd farm model which will allow individuals to invest on day old chicks, feed and in return get profits from little to no more commitment.

OPEN FIELD POULTRY

Book your visit to any of our farms to see how it's done, next farm fair date to 16/17 February 2019

Please list your hashes below ...

Please input the MD5 hashes that you would like to look up. NOTE that the space character is replaced with [space].

Your Hashes:

7a139a9ea37cb26f0636f24db60d9b77

Crack my Hashes

Upload button disabled? We use Google reCAPTCHA v3.

Cracker Results:

The MD5 lookup results will be displayed in this box. Please use the text box above to specify the hashes you want cracked.

HashKiller.co.uk is a hash lookup service. This allows you to input an MD5 hash and search for its corresponding plaintext ("found") in our database of already-cracked hashes.

It's like having your own massive password-cracking cluster - but with immediate results!

We have been building our hash database since August 2007.

Note that we do not use terms like "decrypted", "dehashed", or "reversed" - hashes can only be looked up quickly after they've been cracked the hard way.

In other words, we are not cracking your hash in realtime - we're just caching the hard work of many cracking enthusiasts over the years.

Output Formats :

- Found : \$hash[:\$salt] \$type \$pass
- Not Found : \$hash[:\$salt] [No Match]
- Invalid : \$hash [Invalid]

Cracker Result
We cracked 1 hashes leaving 0 left.

Please list your hashes below ...

Please input the MD5 hashes that you would like to look up. NOTE that the space character is replaced with [space].

Your Hashes:

7a139a9ea37cb26f0636f24db60d9b77

Crack my Hashes

Upload button disabled? We use Google reCAPTCHA v3.

Cracker Results:

7a139a9ea37cb26f0636f24db60d9b77 MD5 telecommunications

HashKiller.co.uk is a hash lookup service. This allows you to input an MD5 hash and search for its corresponding plaintext ("found") in our database of already-cracked hashes.

It's like having your own massive password-cracking cluster - but with immediate results!

We have been building our hash database since August 2007.

Note that we do **not** use terms like "decrypted", "dehashed", or "reversed" - hashes can only be looked up quickly *after they've been cracked the hard way*.

In other words, we are not cracking your hash in realtime - we're just caching the hard work of many cracking enthusiasts over the years.

Output Formats :

- Found : \$hash[:\$salt] \$type \$pass
