I. INTRODUCTION

I.1. Mandate and Powers of the Commission

I.1.1. The Eswatini Communications Commission is a regulatory body established in terms of the Eswatini Communications Commission (ESCCOM) Act, 2013, to regulate the electronic communications sector, including telecommunications networks and services, broadcasting services, postal services, the use and allocation of radio frequency spectrum, e-commerce, data protection and cybersecurity.

I.1.2. The Commission, in exercise of its powers to issue necessary authorisations, regulate and supervise the provision of broadcasting services and the content of those services as per the provision of section 6(c) of the Eswatini Communications Commission (ESCCOM) Act, 2013 as read with section 38(a) of the Eswatini Communications Commission Act, 2013 and section 4(2) of the Eswatini Broadcasting Act, 2023 hereby invites applications for the provision of Free-to-Air Community Television Broadcasting services in the Kingdom of Eswatini from capable and interested persons (natural and juristic).

I.2. Rationale

I.2.1. This ITA is issued in line with relevant national policy objectives, to promote universal access to information, education, and entertainment through sustainable and inclusive broadcasting services.

I.2.2. In addition, this invitation is issued as part of the Commission's initiative to widen the market structure in Eswatini to promote competition, improve the quality of television broadcasting services offered to people in Eswatini, and enable television viewers' choice as envisaged in the Eswatini Broadcasting Act, 2023. The Eswatini Broadcasting Act, 2023, is a legislative framework that gives the Commission the mandate to ensure the development of the country's broadcasting sector and allows for the licensing of new broadcasters to diversify content.

I.2.3. The Eswatini Broadcasting Act, 2023, mainly seeks to:

I.2.3.1. Promote the provision of a diverse range of broadcasting services throughout the Kingdom of Eswatini.

I.2.3.2. Provide for the different classes of licences under broadcasting

services, namely: Public, commercial, community, subscription, subscription management broadcasting, and related services.

1.2.3.3. Provide for a clear licensing and authorisation framework for broadcasting services.

1.2.4. Broadcasting services play a significant role in the dissemination of information, education, and entertainment in the nation. The services play a crucial role in achieving a nation's development goals. As an industry on its own, broadcasting can germinate a sustainable creative industry and create employment opportunities in the Kingdom of Eswatini. Broadcasting can inform audiences about development in other sectors of the economy, thus acting as a complementary service to those developmental activities.

1.2.5. Community broadcasting services, in particular, play an important role in satisfying the content needs of a community that may not be met by other classes of television broadcasting services. Under this category, the ESCCOM has not granted any yet. This invitation to apply seeks to provide an opportunity for community television broadcasting to thrive in the country and to provide platforms for communities to learn and discuss issues that pertain to those communities.

1.3. Purpose of the Invitation to Apply (ITA)

In light of the above-set landscape within the community broadcasting space, the Commission hereby issues this invitation to interested parties to apply for the grant of one (1) free-to-air community television broadcasting licence.

1.4. Type of Community television licence to apply for

Specifically, the type of community television licences to be granted under this ITA shall be a broadcasting service with national coverage for the territory of Eswatini.

For the avoidance of doubt, “Community broadcasting” means a broadcasting service which:

- (a) Is fully controlled by a non-profit entity and carried on for non-profit purposes.*
- (b) Serves a particular community.*
- (c) Encourages members of the community served by that broadcasting service or persons associated with promoting the interest of that community to participate in the selection and provision of programmes to be broadcast.*
- (d) Funded by donations, grants, sponsorships, advertising, membership fees, or a*

combination of any of them.

1.5. Number of licenses to be issued under this ITA.

The Commission shall issue only **one (1)** free-to-air community television broadcasting service licence with national coverage for the territory of Eswatini.

1.6. Scope of the Licence

The licence to be issued shall enable the successful bidder to undertake the following: -

- 1.6.1. Provide free-to-air community television broadcasting services in accordance with the Digital Video Broadcasting-Terrestrial (DVB-T2 EN 300 744) standard or its higher version for free-to-air services, and where necessary Digital Video Broadcasting-Satellite (DVB-S2 EN 300 421) or its higher version to compliment the terrestrial service as a relaying standard to remote areas due to terrain and lack of terrestrial infrastructure, or any other applicable standards set by the Commission from time to time;
- 1.6.2. Construction, maintenance, and operation of
 - 1.6.2.1. Digital broadcast studio facilities;
 - 1.6.2.2. Digital studio transmitter links;
- 1.6.3. Share infrastructure in accordance with the Electronic Communications (Facilities Sharing) Regulations, 2016.

1.7. Radio Frequency Spectrum Resources

1.7.1.If the successful bidder elects to use available signal distribution infrastructure, the bidder will receive authorization from the Commission to use spectrum resources. Additional information on the coverage and technical requirements of the existing signal distribution infrastructure will be provided during a meeting with interested persons on the 9th December 2025 at ESCCOM Offices, at 09:30 hours.

1.7.2.If the successful bidder elects to construct its own infrastructure, the bidder will be assigned one (1) UHF television broadcasting channel in the range 470–862 MHz.

2 THE LICENSING PROCESS AND INDICATIVE SCHEDULE

2.1 In considering this ITA, the Commission will adopt a three-stage process:

- **Stage 1: Licence Application.**
- **Stage 2: Application Evaluation.**
- **Stage 3: Licence Grant.**

2.2 The Application process shall be conducted in line with the following indicative timeline.

- 4.3.3 The Applicant is responsible for ensuring that the proposal copies are delivered to ESCCOM in good shape and on time.

4.4 The ESCCOM Evaluation Committee will evaluate proposals based on the ITA provisions to determine which best meet and satisfy its requirements.

- 4.4.1 Proposals will be evaluated on the basis of unified selection criteria and weighing techniques.
- 4.4.2 The evaluation of the Technical Proposal will be an item-by-item comparative analysis of each Applicant's response.
- 4.4.3 The winning bidder will be determined based on the final score obtained from the entire proposal submitted.

5 APPLICANT'S LEGAL RESPONSIBILITY

- 5.1** Applicants must fully comply with ITA's requirements and all rules and regulations of the Kingdom of Eswatini. ESCCOM expects that the Applicants have full knowledge of the legal environment in Eswatini and all legal frameworks, rules, regulations, and guidelines applicable and amended from time to time. The Applicants shall comply with the laws of Eswatini at all material times. The Applicant shall ensure that it is fully aware of and shall take account within its proposal the impact of compliance with all such laws. This

licensing process shall be governed by and construed in accordance with the laws of Eswatini.

- 5.2** An applicant shall submit one proposal only. Applicants who already hold the same licence applied for, or a previously issued license with similar rights, are not eligible to participate in this process.
- 5.3** Applicants must establish that there is no conflict of interest in responding to this ITA with any of their current assignments and undertakings within the Kingdom. Non-disclosure of this may result in the disqualification of the Applicant. ESCCOM may ask such Applicants for further clarification.
- 5.4** The Applicant shall be responsible for applying for and obtaining all permits and licenses necessary to provide the services under the licence applied for. The Applicant shall satisfy itself as to the procedures and time frames required for such consents and licenses. It is emphasized that the responsibility for identifying and obtaining the consents and licences rests solely with the Applicant.

6 ESCCOM OBLIGATIONS

- 6.1** ESCCOM reserves the right to accept or reject any proposal or reject a part of a specific proposal, or reject all proposals received as a result of this ITA without any obligation to announce the reason.
- 6.2** The Commission may only amend this invitation prior to the date of submission of applications. Any amendments must be published in the same manner that this ITA has been published.
- 6.3** ESCCOM may, at its sole discretion, suspend the licensing process without being liable to bidders.

7 DISCLOSURE OF PROPOSAL CONTENTS

Technical and Financial information provided in applications will be held in confidence and will not be revealed or discussed with other bidders and third parties. The Application of the successful Applicant, however, becomes part of any contract entered into and together with all other material submitted with the proposal, becomes property of ESCCOM.

An Applicant who shares information contained in their proposal with any ESCCOM's personnel and/ or competing Bidder's personnel will be subject to disqualification.

8 BINDING EFFECT OF THE APPLICATION

The Applications submitted to ESCCOM shall be binding on the Applicant and shall continue to be binding on the Applicant until the Licence process is finalized. The Commission may include any commitments made by the Applicant as part of the licensing process in the license issued to the Applicant if its application is successful.
