is calculated by weighting the technical and financial scores and adding them as per the formula and instructions below. The Consultant that achieves the highest combined technical and financial score will be notified and invited for negotiations.

The lowest evaluated Financial Proposal (Fm) is given the maximum financial score (Sf) of 100.

The formula for determining the financial scores (Sf) of all other Proposals is calculated as following:

$Sf = 100 \times Fm / F$, in which “Sf” is the financial score, “Fm” is the lowest price, and “F” the price of the proposal under consideration.

The weights given to the Technical (T) and Financial (P) Proposals are:

T = 70, and

P = 30

Proposals are ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) as following:

$S = St \times T\% + Sf \times P\%$.
